

ADVANCE SPECIFICATION SHEET

MODEL 2000-DX HI-POWER AC INVERTER

The first ALL WEATHER 7 pound AC inverter utilizing nickel cadmium cells capable of running an Auricon 400' Conversion 4000 feet on one charge. Also, the new 2000-DX has more than enough power to run ANY AC powered 16mm camera with energy to spare.

The 2000-DX is equipped with an auxiliary 12 Volt DC out which can be utilized for either the Eclair NPR or Arriflex BL or any other 12 V DC camera motor.

The Model 2000-DX features fully automatic operation and charging with built-in drop-out circuits to protect the battery from over-discharge and over-charging. For wire-less shooting, crystal control operation is available at a low cost.

SPECIFICATIONS:

Output: 125 Volts AC 60 Hz or 50 Hz and 12 Volts DC @ 4AH
(both AC and DC automatic cut-off) 60 watt continuous
80 watt intermittent.

Capacity: Auricon Conversion 4000'
(Approx. Eclair NPR (AC motor) 2800'
footage) Arriflex BL (AC motor) 2800'
Eclair NPR (DC motor) 3000'
Arriflex BL (DC motor) 3000'

Charger: Automatic from 120/240 volts 50/60 Hz AC in 6 hours.

Weight: 7 pounds

Size: 6-1/2 x 3-1/16 x 7"

Batteries: Nickel Cadmium

List Price: Transistorized.....\$750.00
Crystal Controlled.... \$898.00
