FREZZOLINI®

World's standard of Portable power packs for TV news cameras.

Model 1000-DX The Lightweight Standard.

A "must" for cameramen on the run. Advanced technology in a compact, portable battery-operated AC Inverter with built-in charger.

The Frezzolini Model 1000-DX features standard Transistor-Controlled Module for single-system cameras, or a precision Crystal-Controlled Module to provide synchronous AC camera power for "double-system" camera operation. A separate "built-in" Crystal-Controlled Module is available for pilotone Nagra recorders. Crystal-Control operation eliminates sync cable between camera and recorder.

See your quality dealer for complete information and demonstration or phone or write direct to Frezzolini.
