

Kodak Professional

You've told us our line of professional chrome films is confusing. And the pressure to produce wonderful images at a lower cost is greater than ever.

In response to your needs, we have redefined our product line of KODAK EKTACHROME Films—from the multipurpose films you use every day to the unique specialty films you use every other day. And for our most widely used films, utilizing our latest technology, we have adjusted the price to provide even more value. And enable you to maintain the highest standard of quality at a cost that lets you meet the demands of your clients.

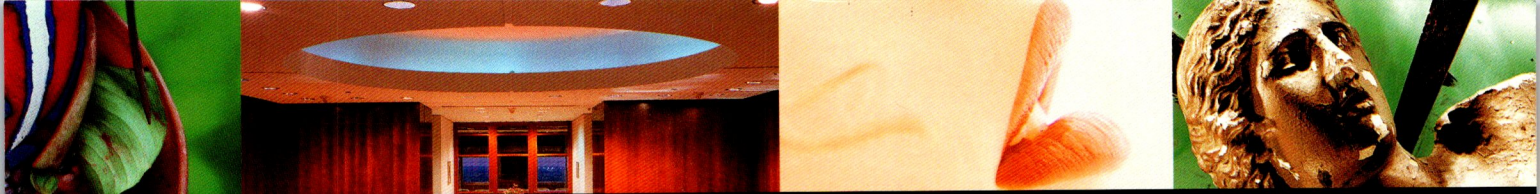

You've also told us how critical the unique attributes of our specialty films are for many of your applications. So we promise to do whatever it takes to continue to provide the widest variety of specialty chrome films that ensure you have the tools you need to maximize your creativity.

As you review this new catalog, remember the one thing that will never change—our commitment to providing the best.

As always, thank you for turning our products into powerful images that alter our views, expand our worlds, change our lives.

Patrick T. Siewert

President, Kodak Professional

It is one story. It is a thousand stories.

Of intrigue and romance, adventure and passion.

Of action and inaction, day and night, shadow and light.

Of sinners and saints, war and peace, good and evil.

Of you. Your thoughts, your visions, your nightmares, your dreams.

And the many ways we help bring them forth for all the world to see.

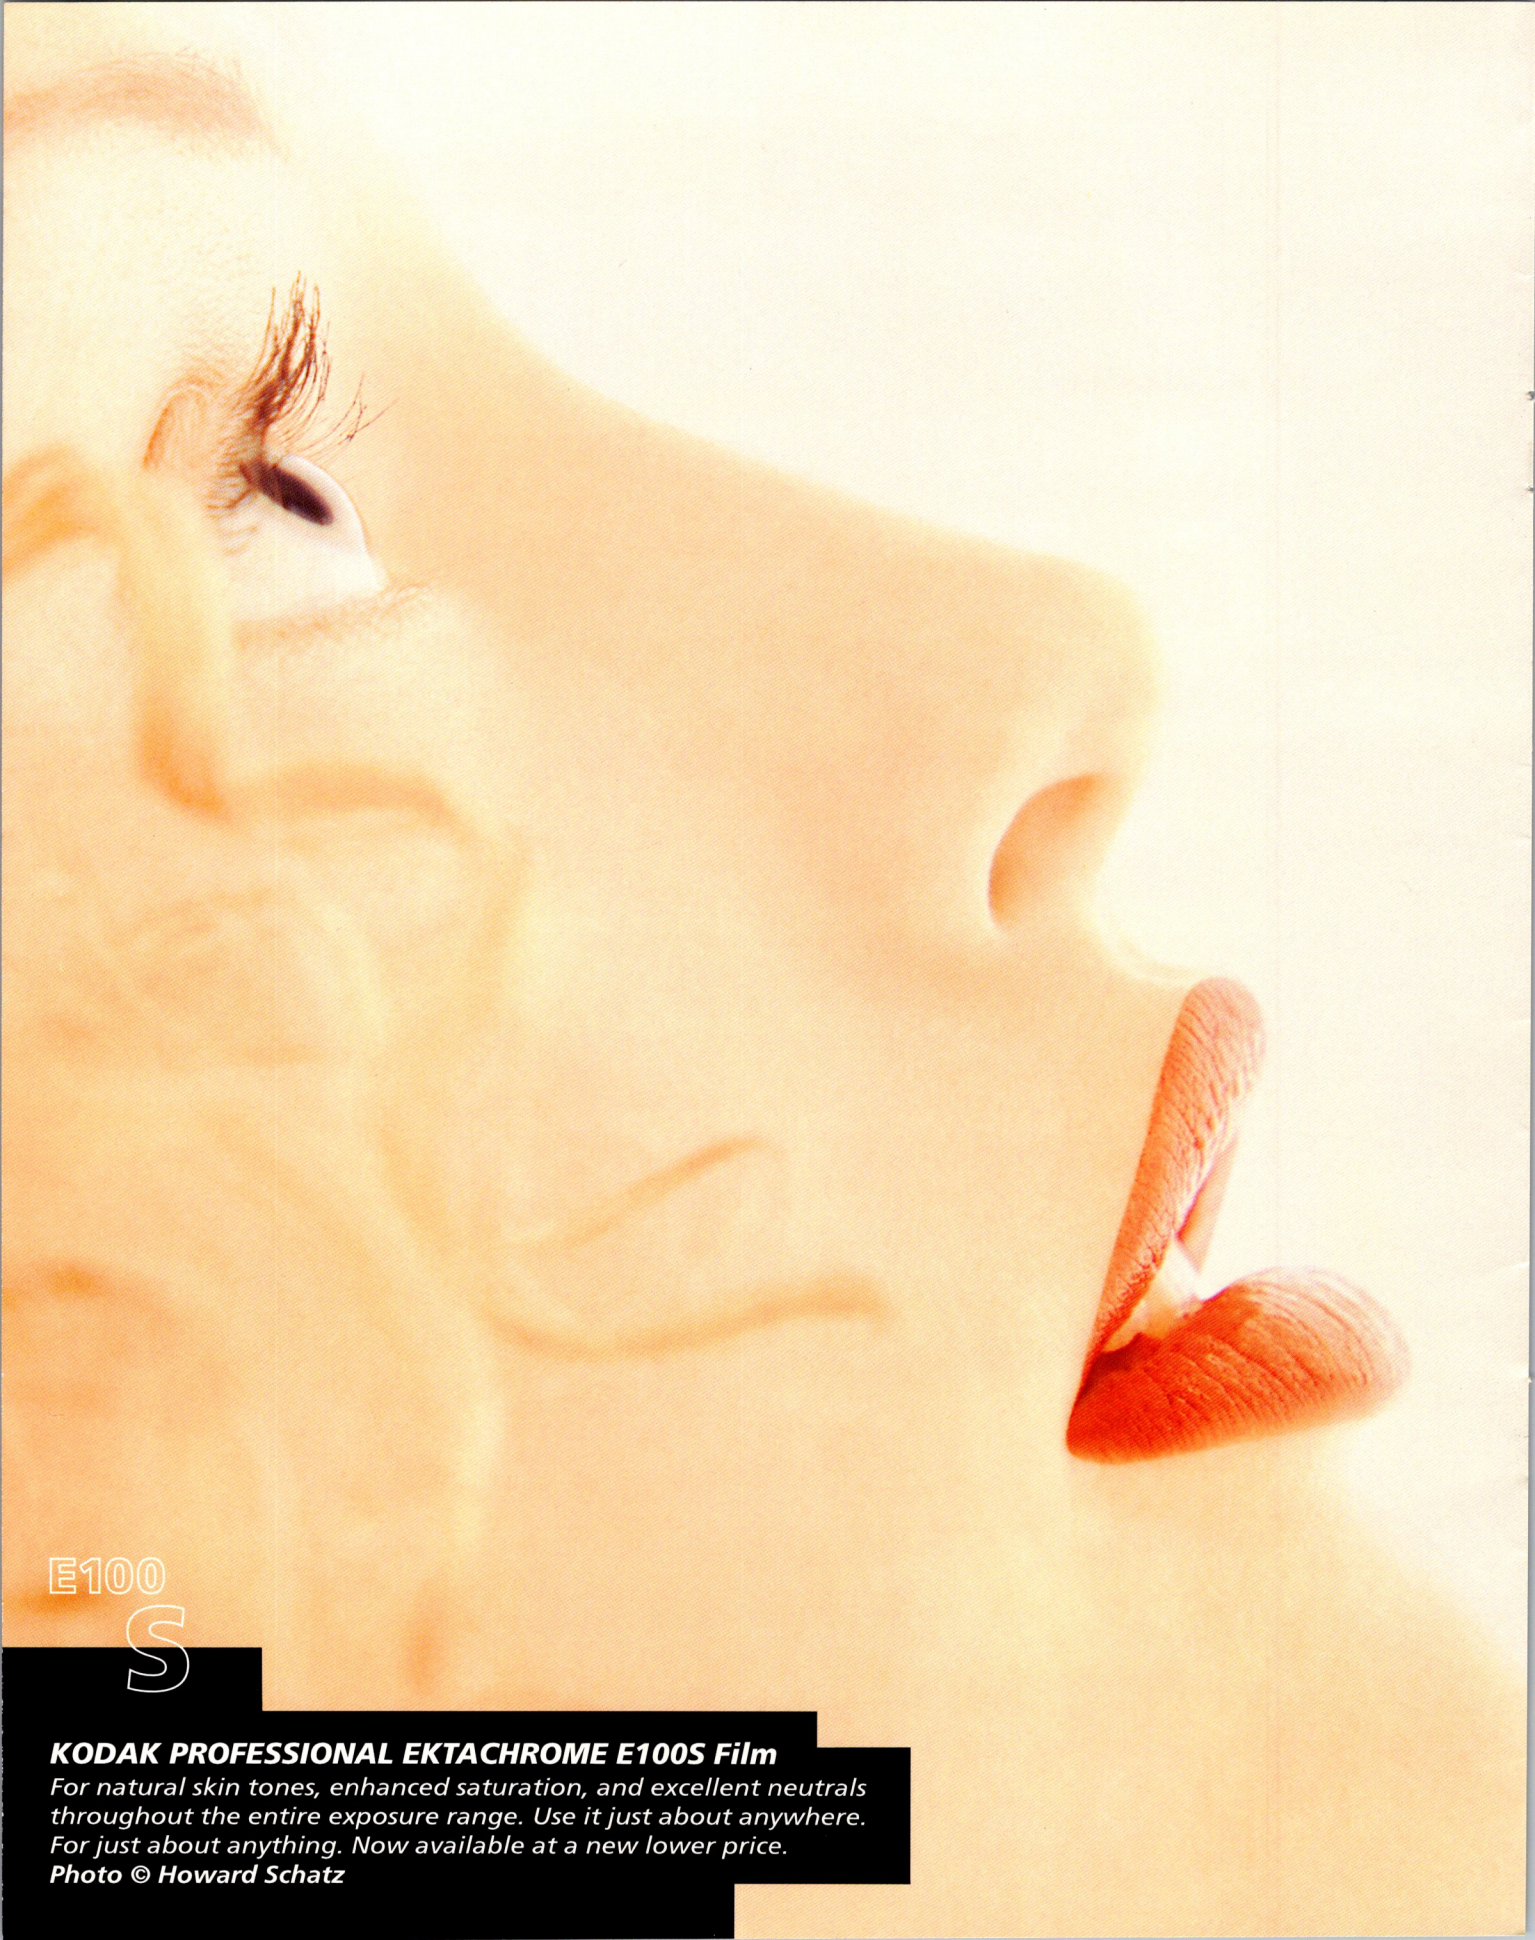

It is a new story, it is an old story, it is every story.

The story of KODAK PROFESSIONAL EKTACHROME Film.

The story of life. Chapter One: Every day.

E100S, E100SW, E200, E100VS.

The films you rely on day in, day out. Offering the most advanced KODAK T-GRAIN Emulsion to date. A full color palette. And exceptional consistency from batch to batch, roll to roll.

E100
S

KODAK PROFESSIONAL EKTACHROME E100S Film

For natural skin tones, enhanced saturation, and excellent neutrals throughout the entire exposure range. Use it just about anywhere. For just about anything. Now available at a new lower price.

Photo © Howard Schatz

KODAK PROFESSIONAL EKTACHROME E100SW Film

The same vibrant, saturated colors of E100S, with a slight warmth to compensate for overcast or cool lighting conditions.

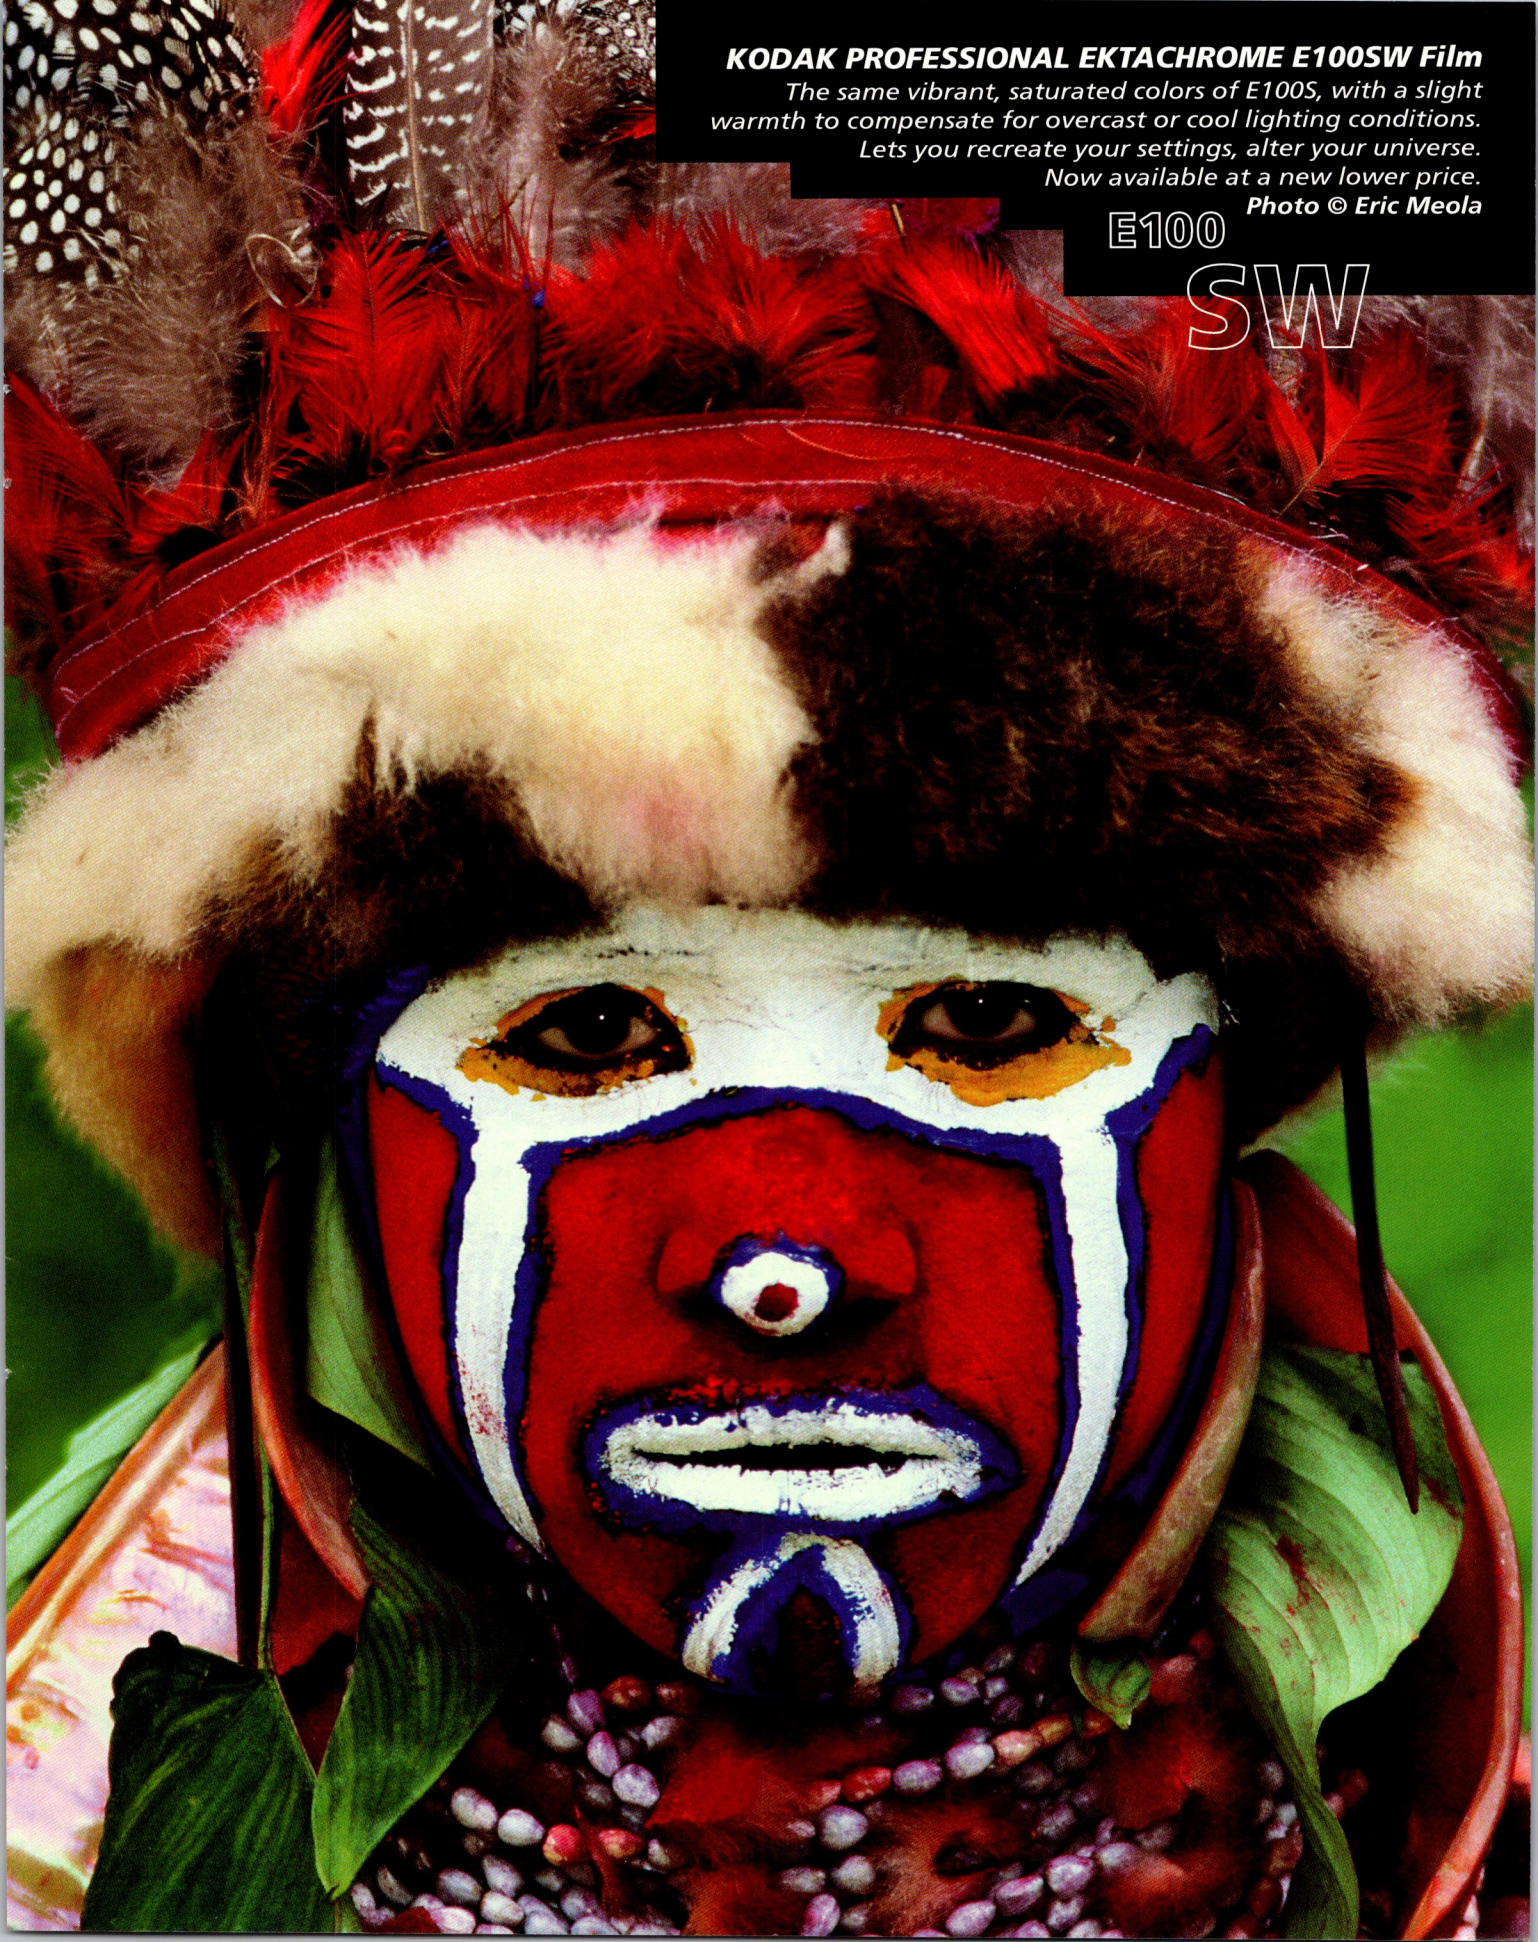

Lets you recreate your settings, alter your universe.

Now available at a new lower price.

E100

SW

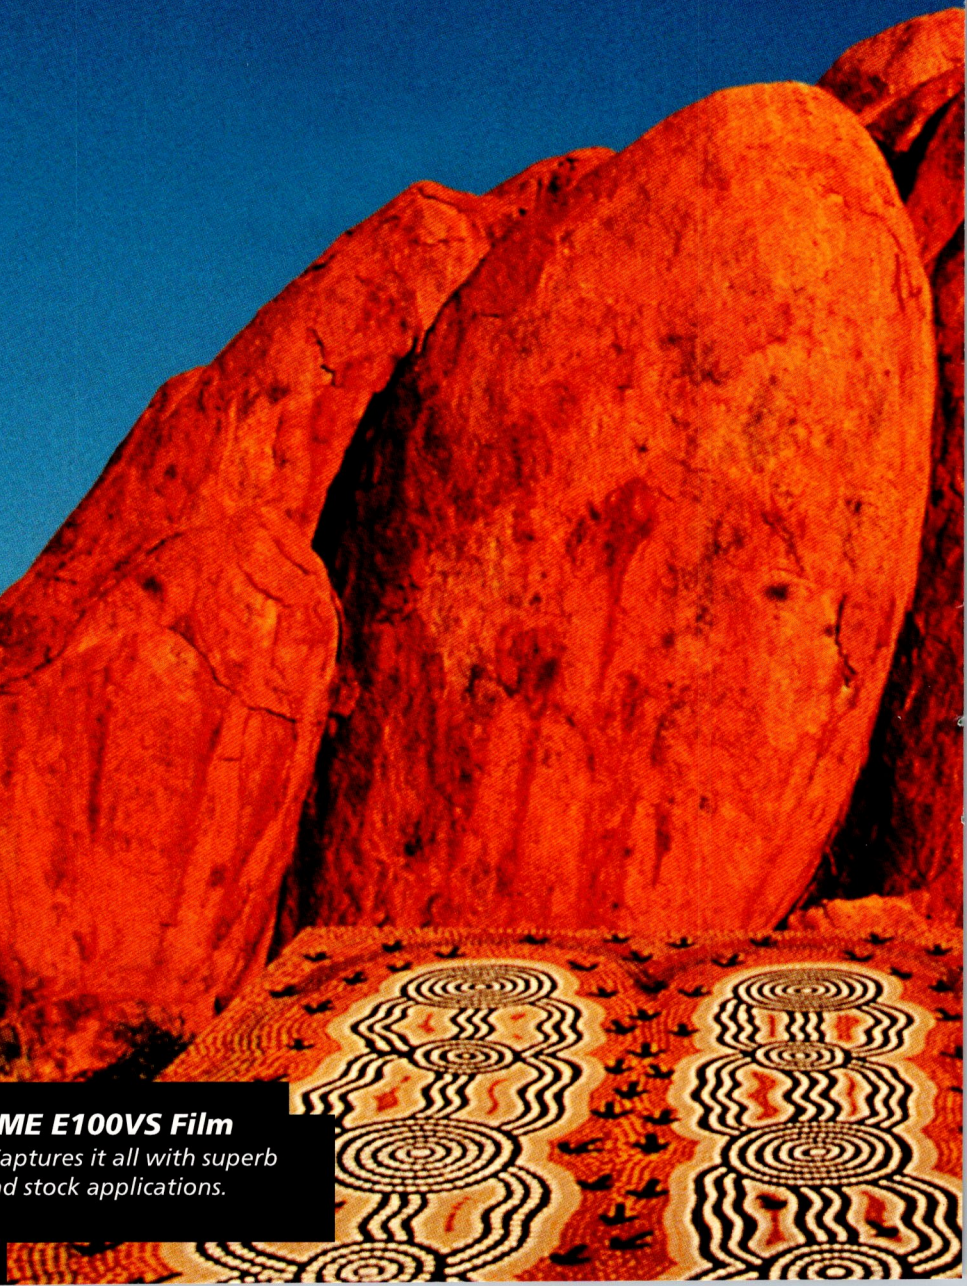

E100
VS

KODAK PROFESSIONAL EKTACHROME E100VS Film

The planet's first hyper-color 100-speed film. Captures it all with superb sharpness and reciprocity. Ideal for outdoor and stock applications.

Photo © Frans Lanting

E200

KODAK PROFESSIONAL EKTACHROME Film E200

The first high-speed chrome film with the color, contrast, and image structure of a lower speed film. And excellent push-processing performance. Use when life is moving at breakneck speed and you've no room for error. Film is at its best in 1 to 2 push.

Photo © Chris Hamilton

Chapter Two: Every other day.

Then there are the stories that go beyond traditional expectations. Stories of reinvention, reinterpretation, recreation.

For these, we offer our line of state-of-the-art specialty films. Ranging from old favorites, cherished for years, to specific-occasion films available no place else.

Ensuring that, whatever the particular task at hand, whatever the specific application, you can always count on Kodak Professional.

KODAK EKTACHROME 100 Professional Film

*The film that sees dyes as the eye intended.
Excellent highlight detail, accurate neutrals, fine
grain, high sharpness. A natural for catalog work.*
Photo © Omega Studios

EPN

KODAK EKTACHROME 100 Plus Professional Film

*Increased color saturation with natural, accurate skin tones.
Performs well in studio and catalog applications.*
Photo © Charles Hopkins

EPP

EPR

KODAK EKTACHROME 64 Professional Film

Full tonal and color ranges, with just a hint of warmth; renders texture and remarkably fine detail without harshness. Captures flesh tones exceptionally.

Photo © Hans Neleman

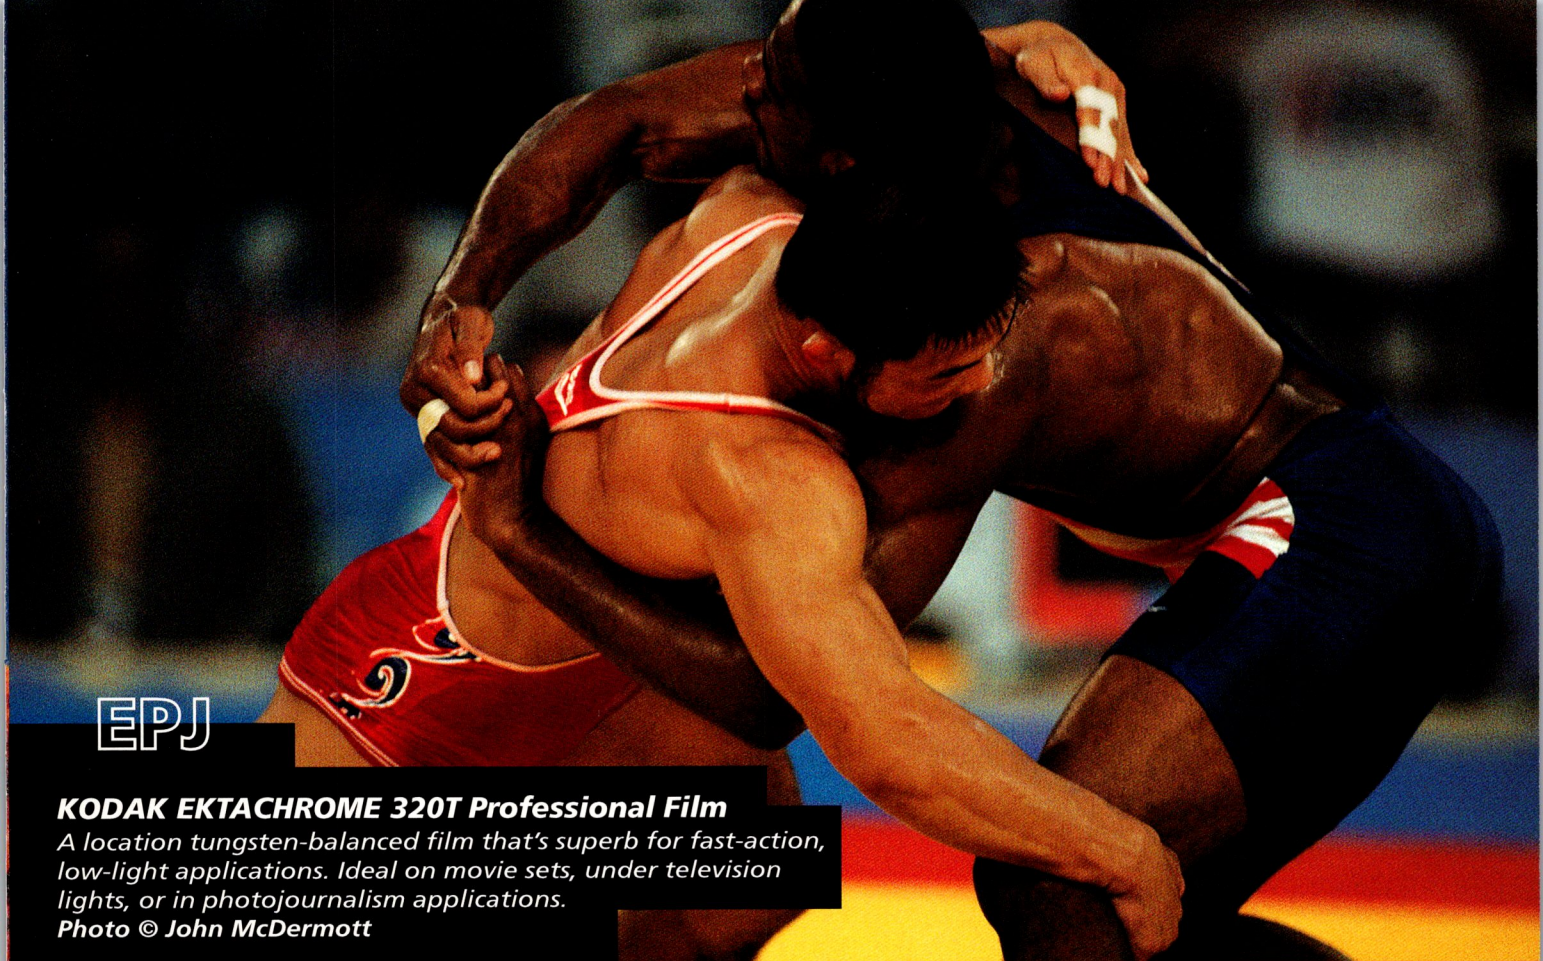

EPT

KODAK EKTACHROME 160T Professional Film

A medium-speed location tungsten film featuring fine grain and high sharpness.

Photo © Mark Fisher

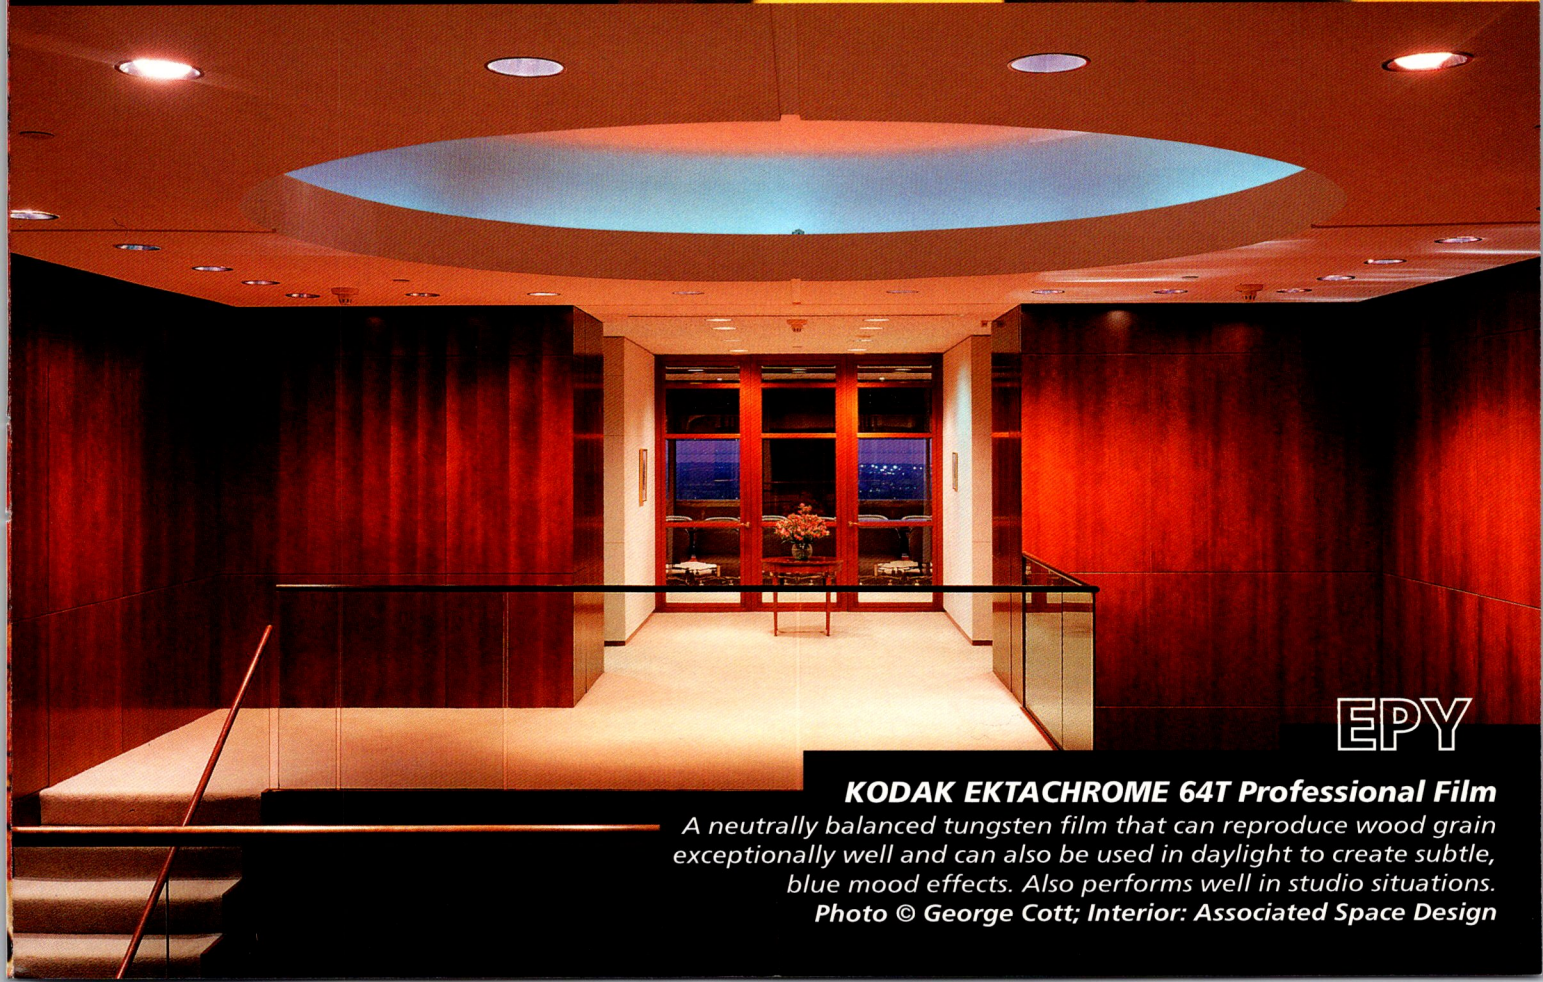

EPJ

KODAK EKTACHROME 320T Professional Film

A location tungsten-balanced film that's superb for fast-action, low-light applications. Ideal on movie sets, under television lights, or in photojournalism applications.

Photo © John McDermott

EPY

KODAK EKTACHROME 64T Professional Film

A neutrally balanced tungsten film that can reproduce wood grain exceptionally well and can also be used in daylight to create subtle, blue mood effects. Also performs well in studio situations.

Photo © George Cott; Interior: Associated Space Design

EPL

KODAK EKTACHROME 400X Professional Film

The 400-speed film with warmth for less than perfect lighting. Good for location, fast action, and sports.

Photo © Michael Spilotro

EPH

KODAK EKTACHROME P1600 Professional Film

Use this very high-speed film to achieve granular artistic effects and in very low-light, fast-action applications, with long telephoto lenses.

Photo © Erik Rank

KODAK EKTACHROME 200 Professional Film

A daylight E-6 film that can be cross processed in Process C-41 chemicals. Perfect for advertising, fashion/glamour applications. Available in 120 rolls only.

Photo © Steve Lippman

EPD

KODAK EKTACHROME Infrared EIR Professional Film

Extends the vision of the camera beyond the limits of the human eye, resulting in vivid, false-color renditions. Used most to achieve artistic effects, special-effect images by scientists, and for environmental assessment/analysis.

The first infrared-sensitive color reversal film compatible with Process E-6.

Perfect for fine art, fashion, and stock photography.
