

KODAK

*Your Kodak keeps vividly alive
that joyous afternoon at the shore.*

Keep a Kodak Record of Summer's Good Times

WITH your Kodak, all happy memories remain vividly alive. Every time you open your album, picnics repeat themselves, vacation joys troop back and the children really are children again.

And yet how often you hear, "Oh! if we only had our Kodak along!" Don't let that lament be yours.

And remember that Modern Kodaks make you independent of the weather—that you don't need bright sunlight. Their fast lenses allow you to make good pictures from dawn to dusk, in sunshine or in rain.

After you read about them here, be sure to see them at your Kodak dealer's. You'll find that much has been accomplished toward making successful snapshots all the easier.
